Diagnostic services and naturopathic supplements

Suzanne has functional laboratory services provided by LifeLabs and In-Common Laboratories. This enables her to perform comprehensive blood work, urine and stool testing, as well as special tests using saliva and hair. OHIP does not cover laboratory services requested by naturopathic doctors, therefore, patients are required to pay for these services.

Suzanne also carries a limited selection of professional quality products that are not available through health food stores. Patients are required to pay for products that they choose to purchase from Suzanne.

Booking appointments

Please schedule your appointments and plan to arrive for appointments on time. I try my best to be punctual for appointments.

Cancelled and missed appointments

Please ensure to give at least one business day cancellation notice. This will allow for consideration of other patients who would also like to schedule an appointment. For appointments cancelled ON THE SAME DAY or missed appointments, the FULL COST of the appointment will be charged. Consideration will be given to unforeseeable circumstances.

Payment for consultation fees

Payment for services is due at the end of each visit and a receipt will be given when payment is received. Please retain your receipt for claiming your insurance, if applicable. **Fees may be paid by cash, cheque, credit card or e-transfer.** Any prescribed botanicals, supplements, or homeopathics are not included in the above consultation fees.

Confidentiality

Everything that you communicate, directly or indirectly, to Suzanne is confidential unless you give written permission to disclose information to a third party.

It is important to note that there are exceptions to confidentiality that include the legal and/or ethical obligations to:

1. report incidents of child abuse (physical, sexual or emotional) and neglect;
2. comply with court-ordered subpoena;
3. prevent harm to yourself or another person should such plans be disclosed;
4. report a health professional who has sexually abused a patient.
